Active Learning Resources

Websites:

Active Learning Space:
Active Learning Space Website Home Page: http://www.activelearningspace.org/index.php

The Principles page: http://www.activelearningspace.org/principles/overview-of-active-learning

Ideas from the field page:
http://www.activelearningspace.org/principles/overview-of-active-learning

For “Families” tab with the links:
- Families Overview: http://www.activelearningspace.org/families/families-overview
- **Home Hacks tab**: This section provides lots of great ideas for materials and spaces in many places in a home to create responsive learning environments.
  https://www.activelearningspace.org/families/home-hacks/home-hacks-overview

Under the “**Equipment**” tab you can learn about the equipment that helps turn a space in your home into an active learning environment. The tab for things you can make will give you some good ideas, if you click on the hyperlinks for different equipment:
  http://www.activelearningspace.org/equipment/make-your-own-equipment/overview-make-yourown-equipment

**Resonance Board:**
The link below shares information about resonance boards and their purpose and also includes video examples of children using them and then a detailed explanation of how to build one.
http://www.activelearningspace.org/equipment/make-your-own-equipment/resonance-board

**Active Learning Materials and Activities Planning Sheet:** Useful in tracking learner’s likes/dislikes and ways they are engaging in activity learning.
Paths to Literacy: https://www.pathstoliteracy.org/secondary-topics/active-learning

Washington Sensory Disabilities Services Spaces for Active Learning:
Description of Spaces for Active Learning https://www.wsdsonline.org/space-for-active-learning/

Three video examples: Click on the Videos tab in the top toolbar. Some of these children have CVI and hearing loss. The first videos show children in different seated arrangements besides a Little Room which was something we discussed. https://www.wsdsonline.org/space-for-active-learning/

Resonance Boards: These video examples provide good overview of use of a resonance board: https://www.wsdsonline.org/resonance-board
